

PRESS RELEASE

MCP TO INSTALL CELLATSEA™ ONBOARD OCEAN VILLAGE FLEET

Grimstad/Southampton, April 18, 2007: Maritime Communications Partner AS (MCP) has signed a contract with Ocean Village to deliver GSM and SMS services onboard Ocean Village and the soon-to-be-launched Ocean Village Two, enabling both passengers and crew onboard both ships to make and receive calls and send and receive SMS using their own mobile phones and phone numbers.

Widely recognized as the best in its class, the two-ship Ocean Village fleet offers a fresher, younger and more active take on holidays at sea. Ocean Village Two will be launched on 24 April 2007 in Southampton. For the summer season, both ships will be based in the Mediterranean while winter months will be spent sailing among the Caribbean islands.

MCP's CellAtSea™ service means passengers can keep in touch with friends and family and even send photos and video clips from their mobiles (depending on the model). It also makes it easy for travelling companions or new friends to call or text about where to meet up onboard if they're out and about the ship doing different things.

'Giving passengers what they want is what Ocean Village is all about, and this new service means that people can stay in contact with friends and family at home as easily onboard as they can when ashore. And they can make last minute arrangements with people onboard without having to walk the length of the ship to find them. It keeps things simple and convenient for everyone and means they can concentrate on what they are on the ship for – having a great time!' says Gill Haynes, Head of Marketing, Ocean Village.

For the passengers, the mobile services are transparent, readily available on their own personal mobile phone and operate seamlessly through MCP's network in the same way as when travelling abroad. MCP tariffs all calls and handles the revenue flow generated by the networks through industry-standard billing and accounting systems. Customers are charged by their home operator through normal invoicing routines.

The GSM network will operate in various bars and rooms onboard each ship and in all cabins. It will not be activated in restaurants and some deck areas.

About Maritime Communications Partner AS:

MCP is the global maritime cellular operator focused on providing cost effective GSM and CDMA communications solutions specially created to fulfill the requirements of the shipping industry. MCP enables cell phone coverage by installing and operating the ship-borne radio networks, linking the vessels with public networks via satellite. MCP operates its mobile services via roaming agreements with cellular operators throughout the world.

Through a partnership with MCP, the ship-owners benefit by providing a service in demand to their passengers, thus enhancing their own competitiveness. MCP works in close cooperation with customers, providing unique business models based on revenue sharing and co-investments in the vessel's operational infrastructure.

MCP is a fully recognised international cellular operator which handles all legal and regulatory challenges associated with the unique technology and service solutions that it provides to its customers.

MCP is fully owned by Telenor ASA.

About Ocean Village:

Ocean Village was launched in 2003 and is part of Carnival plc, a division of the world's largest cruise operator. Voted Best Niche Cruise Line at the British Travel Awards 2006, Ocean Village combines action and relaxation at sea and ashore into a fresh new take on holidays for thirty-to-fifty-somethings: younger, more upbeat passengers who want to get more out of their time away. With no formal dress codes, Ocean Village's casual on board style includes high quality 24/7 buffet dining, plus waiter service options at the Bistro with a menu created

by TV celebrity chef James Martin. Calling at six destinations every seven days, the ship offers a choice of four itineraries - two in the Caribbean, two in the Mediterranean. These can be combined into a fortnight's cruise or added to a week's hotel stay in Barbados or Majorca to give a 14-night stay-and-cruise option. Action ashore options include abseiling, river rafting, jeep safaris, wine tasting and rides on the ships own fleet of mountain bikes.
