

PRESS RELEASE

MCP TO INSTALL CELLATSEA™ ON BOARD ACCIONA TRASMEDITERRANEA'S JUAN J SISTER

Grimstad/Madrid, February 12, 2007: Maritime Communications Partner AS (MCP) has signed a contract with Acciona Trasmediterranea to deliver GSM and SMS services on board ferry, Juan J Sister. Juan J Sister sails between Malaga (ESP), southern Spain and Melilla (MOR), located on the south-east coast of the Tires Forcas Peninsula in northern Africa. Spanish owned Acciona Trasmediterranea has one of the most modern and best equipped fleets in all of Europe, assuring that passenger satisfaction is optimal. MCP's CellAtSea™ is the latest technological service to be offered to passengers on board the comfortable Juan J Sister.

'By expanding and upgrading our on board services to include MCP's CellAtSea™, Acciona Trasmediterranea is once more leading the way in maximizing passenger satisfaction. We look forward to a successful partnership with MCP and aspire together to deliver fleet wide connectivity.' says Ignacio Llordén Romero, IT Director, Acciona Trasmediterranea.

The service enables passengers and crew on board cruise-ships, ferries and other vessels around the world, to make and receive calls and SMS using their own mobile phones and phone numbers.

For the passengers, the mobile services are transparent, readily available on their own personal mobile phone, operating seamlessly through MCP's network in the same way as when travelling abroad. MCP tariffs all calls, and handles the revenue flow generated by the networks, through industry standard billing and accounting systems. The customers are charged by their home operator by normal invoicing routines.

About Maritime Communications Partner AS:

MCP is the global maritime cellular operator focused on providing cost effective GSM and CDMA communications solutions specially created to fulfill the requirements of the shipping industry. MCP enables cell phone coverage by installing and operating the shipborne radio networks, linking the vessels with public networks via satellite. MCP operates its mobile services via roaming agreements with cellular operators throughout the world.

Through a partnership with MCP, the ship-owners benefit by providing a service in demand to their passengers, thus enhancing their own competitiveness. MCP works in close cooperation with customers, providing unique business models based on revenue sharing and co-investments in the vessels' operational infrastructure.

MCP is a fully recognised international cellular operator which handles all legal and regulatory challenges associated with the unique technology and service solutions that it provides to its customers.

MCP is fully owned by Telenor ASA.

About ACCIONA Trasmediterranea:

ACCIONA Trasmediterranea has 30 passenger and cargo ships in service, with ISO 9001:2000 certification for Quality and ISO 14001:2004 certification of its Environmental Management System, which guarantee compliance with the highest standards of quality, safety and environmental protection. The latest incorporation last December was a newly-built catamaran for the Southern Strait zone routes from Almería and Málaga to Melilla. This cutting-edge vessel sets a new standard in comfort for fast ferries.

ACCIONA Trasmediterranea operates between mainland Spain and the Balearic and Canary Islands, Ceuta and Melilla, as well as on international routes with Algeria and Morocco, France and the UK. ACCIONA is one of Spain's largest companies and operates in over thirty countries on the five continents in the fields of renewable energy, construction, water, urban and environmental services, logistics and transport, home building, and other activities.
